'An Intrepid Scot' makes an important new contribution to the growing literature on the perceptions of the Islamic world and the 'Orient' in early modern Europe, at the same time as illuminating the attitudes of a Protestant from Northern Europe towards the Catholic South. In this book Edmund Bosworth looks at the life and career of William Lithgow, a tough and opinionated Scots Protestant, who had a seemingly insatiable Wanderlust and who managed to survive various misadventures and near-death experiences in the course of his travels. These took him through a dangerously Catholic Southern Europe to a dangerously Muslim Greece and Istanbul en route for his pilgrimage destination of the Holy Land; on another occasion he went through North Africa and returned circuitously via Central and Eastern Europe; but he was stopped in his tracks whilst endeavouring to reach the court of Prester John in Ethiopia, when he fell into the hands of the Spanish Inquisition and narrowly escaped a horrible death. Lithgow was one of several men of his time who journeyed eastwards, some as far as Persia and India, but unlike many others, he has not been the subject of a special study. Bosworth now places him within the context of the present interest in perceptions of the Islamic world and of the 'Orient' and 'Orientals' in early modern Europe. In addition to the entertainment of the travel narrative, the book shows how one Westerner of the time interpreted the alien East for his readers, and how the Ottoman Empire and its apparently unstoppable might both fascinated and struck fear into the hearts of those outside it. Songs for Young Singers, a careful review of more than 2,000 songs printed in over 70 anthologies, has been written to address the needs of choir directors and voice teachers of junior high and high school age students. While many texts and courses on the art of singing offer comprehensive overviews of technique and performance, few have time to delve into the specific questions they spawn. Solutions for Singers explores these unanswered questions, filling in gaps that professional performers, students of singing, and voice teachers have long sought to close. Fielding over 200

questions, distinguished teacher and performer Richard Miller tackles problems raised during hundreds of his master classes and pedagogy courses. He deliberately avoids abstract generalities, concentrating instead on specific, recurring questions: What are some good exercises to loosen or relax tension in the back of the tongue? Do you apply the same principles regarding breathing to a younger student that you do to older students? What is meant by voiced and unvoiced consonants? Is there a female falsetto? Through such specialized questions, Miller probes the very essence of artistic expression. The questions are organized under ten broad topics, which Miller considers from various angles. He couples traditional and modern philosophies to present the most relevant and precise solutions. The result is an invaluable handbook for singers, which, read either sequentially or selectively, provides a unique and pragmatic approach to vocal artistry and technique. Suitable for all voices, this comprehensive introductory text uses a variety of pedagogical approaches to introduce students to the art and pleasure of singing. The text is flexibly organized, presenting the basic principles of voice production, musicianship, song interpretation, and vocal health in a format that can be adjusted to meet the needs of the classroom and the individual. The text consists of two parts. Part One discusses such topics as breathing, basic vocal health, learning to read music, how to learn a song, and performance techniques. Part Two is an anthology of 50 songs - folk, musical theater, art songs, and rounds (for group performance). A companion 2-CD Set includes all the melodies and accompaniments for the song anthology. **BLACK ENTERPRISE** is the ultimate source for wealth creation for African American professionals, entrepreneurs and corporate executives. "Tish Oney presents a cutting-edge guide for those teaching and singing jazz, combining jazz voice stylization techniques and various improvisational approaches with classic voice pedagogy. Legendary jazz singers' approaches and techniques are described to illustrate the various approaches available to jazz singers"-- This volume deals with the multiple impacts of the First World War on societies from South Europe, Latin America, Asia and Africa, usually largely overlooked by the historiography on the conflict. Due to the lesser intensity of their military involvement in the war (neutrals or latecomers), these countries or regions were considered "peripheral" as a topic of research. However, in the last two decades, the advances of global history recovered their importance as active wartime actors and that of their experiences. This book will reconstruct some experiences and representations of the war that these societies built during and after the conflict from the prism of mediators between the war fought in the battlefields and their homes, as well as the local appropriations and resignifications of their experiences and testimonies. First published in 2000. Routledge is an imprint of Taylor & Francis, an informa company. The repertoire files of the late Dr. Barbara Doscher, in which she noted her tips, observations on each particular piece, and notes on how to best teach it, comprise a unique trove of wisdom unmatched by any other source. Laboriously transcribed and annotated by John Nix, one of Doscher's students, the notes are presented here as a companion volume to her best-selling text, *The Functional Unity of the Singing Voice*. Entries are divided by broad category (art song, arias, folk songs, oratorio, musicals, etc.) and are arranged by song title. Each entry includes author, poet or librettist, key(s) available, ranges (for each key), tessitura, difficulty level, voice types, comments, a summary of the text, and notes as to genre, language, and editions available. Five comprehensive indexes facilitate searching. As a guide to selecting vocal repertoire, this book's practical and sometimes colorful comments on each song or aria will assist the vocal instructor in matching the student's ability and range to the appropriate piece. This distillation of Barbara Doscher's many years of experience in the teaching studio is a necessary addition to any vocal instructor's collection, as well as a valuable resource for the individual singer. This book teaches performers to use the Feldenkrais Method of neuromuscular activities to ameliorate problems of tension, muscle strain, and illness in order to obtain optimal vocal performance. It contains important and unique modularized lessons specifically designed for liberating function in all musicians, and singers in particular. **All Gates Open** presents the definitive story of arguably the most influential and revered avant-garde band of the late twentieth century: **CAN**. It consists of two books. In **Book One**, Rob Young gives us the full biography of a band that emerged at the vanguard of what would come to be called the Krautrock scene in late sixties Cologne. With Irmin Schmidt and Holger Czukay - two classically trained students of Stockhausen - at the heart of the band, **CAN's** studio and live performances burned an incendiary trail through the decade that followed: and left a legacy that is still reverberating today in hip hop, post rock, ambient, and countless other genres. Rob Young's account draws on unique interviews with all

founding members of CAN, as well as their vocalists, friends and music industry associates. And he revisits the music, which is still deliriously innovative and unclassifiable more than four decades on. All Gates Open is a portrait of a group who worked with visionary intensity and belief, outside the system and inside their own inner space. Book Two, Can Kiosk, has been assembled by Irmin Schmidt, founding member and guiding spirit of the band, as a 'collage - a technique long associated with CAN's approach to recording. There is an oral history of the band drawing on interviews that Irmin made with musicians who see CAN as an influence - such as Bobby Gillespie, Geoff Barrow, Daniel Miller, and many others. There are also interviews with artists and filmmakers like Wim Wenders and John Malkovitch, where Schmidt reflects on more personal matters and his work with film. Extracts of Schmidt's notebook and diaries from 2013-14 are also reproduced as a reflection on the creative process, and the memories, dreams, and epiphanies it entails. Can Kiosk offers further perspectives on a band that have inspired several generations of musicians and filmmakers in the voices of the artists themselves. CAN were unique, and their legacy is articulated in two books in this volume with the depth, rigour, originality, and intensity associated with the band itself. It is illustrated throughout with previously unseen art, photographs, and ephemera from the band's archive. The orientalist Karl Suessheim kept his Diary in Turkish - and later in Arabic - from his early years in the Ottoman Empire through the Young Turk Revolution of 1908 and after his return to Germany, through war, revolution, and the horrors of Nazi rule. This book presents selected episodes in translation from the surviving parts of Suessheim's Diary, covering the years 1908 to 1940. In its detached style it allows the reader a remarkable insight into Suessheim's family surroundings, his academic career at Munich University, and the eventful times he lived through. Flemming and Schmidt aim at providing at once an intimate impression of, and a monument to, one of the great diarists of the last century. To illuminate the issues for a broad range of readers, the selected texts from the Diary are situated against the background of contemporary events and fully annotated. "Erst die kommentierte •bersetzung der Tagebuecher gibt Suessheim sein Leben zurueck, macht aus dem Vergessenen und Unbekannten einen an allem interessierten Menschen im Wirbel des dramatischen Geschehens der ersten H•lfte des zwanzigsten Jahrhunderts [•] in diesem Buch entsteht ein Leben, das den Leser in den Bann zieht. Es ist die Lebensgeschichte eines genialen Autodidakten, der durch seine bedingungslose Liebe zum Orient zu einem Au•enseiter wurde." FAZ •Flemming and Schmidt have done a remarkable job and the resulting work presents a valuable historical source. • Jahrbuch fuer Europ•ische •berseegeschichte "There is more, much more, in this impeccably researched and translated work than can be mentioned in the space of a short review." Journal of the Royal Asiatic Society. In The Race of Sound Nina Sun Eidsheim traces the ways in which sonic attributes that might seem natural, such as the voice and its qualities, are socially produced. Eidsheim illustrates how listeners measure race through sound and locate racial subjectivities in vocal timbre—the color or tone of a voice. Eidsheim examines singers Marian Anderson, Billie Holiday, and Jimmy Scott as well as the vocal synthesis technology Vocaloid to show how listeners carry a series of assumptions about the nature of the voice and to whom it belongs. Outlining how the voice is linked to ideas of racial essentialism and authenticity, Eidsheim untangles the relationship between race, gender, vocal technique, and timbre while addressing an undertheorized space of racial and ethnic performance. In so doing, she advances our knowledge of the cultural-historical formation of the timbral politics of difference and the ways that comprehending voice remains central to understanding human experience, all the while advocating for a form of listening that would allow us to hear singers in a self-reflexive, denaturalized way.
