The Spiritual Mechanics of Love May 31 2020 Many people wonder what makes relationships work or why they often don't work, and how we can make them work; but everyone knows, somehow, how to keep a relationship, either it lasts a few weeks, months or years; everyone knows, at the very least, some principles about love; and yet, because such principles don't apply in modern times and for most individuals, we still witness an increasing number of breakups and divorces, and this while gradually, more and more people, basically, keep on quitting putting the efforts to change themselves. On the other hand, what kind of efforts should people really be looking forwards to? Which studies truly help anyone in understanding what love is from a spiritual point of view? For as we barely started to comprehend what love is at a chemical level, a long way is needed to get the answers this book offers. Now, the majority of the people do believe they are putting the right efforts in their relationships, most of which focusing on communication; and yet, they also admit that they don't feel understood by their partner. And although communication is indeed the basis of any relationship, there are many other factors interfering with it, reason why we are never satisfied with our results. The whole world of energies around us and within us, manifests as well in our emotions, and that's why, sometimes, we also feel like we can't communicate with some persons. In order to do that effectively, we would have to understand this energy field; for there are spiritual laws and chemical principles that operate in the physical world too; and if we understand them, we can understand our relationships better. Once we apprehend these principles well enough, and put them to use accordingly, they will feel natural to us, because, indeed, they are; and as you will see here, because these manifestations are occurring all the time, you will know too what to do in the right moment once noticing the information being displayed in your reality.

Work Won't Love You Back Nov 25 2019 A deeply-reported examination of why "doing what you love" is a recipe for exploitation, creating a new tyranny of work in which we cheerily acquiesce to doing jobs that take over our lives. You're told that if you "do what you love, you'll never work a day in your life." Whether it's working for "exposure" and "experience," or enduring poor treatment in the name of "being part of the family," all employees are pushed to make sacrifices for the privilege of being able to do what we love. In *Work Won't Love You Back*, Sarah Jaffe, a preminent voice on labor, inequality, and social movements, examines this "labor of love" myth—the idea that certain work is not really work, and therefore should be done out of passion instead of pay. Told through the lives and experiences of workers in various industries—from the unpaid intern, to the overworked teacher, to the nonprofit worker and even the professional athlete—Jaffe reveals how all of us have been tricked into buying into a new tyranny of work. As Jaffe argues, understanding the trap of the labor of love will empower us to work less and demand what our work is worth. And once freed from those binds, we can finally figure out what actually gives us joy, pleasure, and satisfaction.

Have you ever looked around and wondered, "Why has everyone found love except me?" You're not the only one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. This "simple-to-use guide" (Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone*) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You'll learn: -What's holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn't) -How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) -Why "the spark" is a myth (but you'll find love anyway) This "data-driven" (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. "Don't even think of swiping right again until you read this book." (Christie Tate, author of *Group*) When it comes to modern relationships, our thumbs do the talking. We swipe right into a stranger's life, flirt inside text bubbles, spill our hearts onto the screen, use emojis to convey desire, frustration, rage. Where once we pored over love letters, now we obsess over response times, or wonder why the three-dot ellipsis came . . . and went. Nobody knows this better than Dr. Mimi Winsberg. A Harvard- and Stanford-trained psychiatrist, she cofounded a behavioral health startup while serving as resident psychiatrist at Facebook. Her work frequently finds her at the intersection of Big Data and Big Dating. Like all of us, Winsberg has been handed a smartphone accompanied by the urgent plea: "What does this mean?" Unlike all of us, she knows the answer. She is a text whisperer. *Speaking in Thumbs* is a lively and indispensable guide to interpreting our most important medium of communication. Drawing from of-the-moment research and a treasure trove of real-life online dating chats, including her own, Winsberg helps you see past the surface and into the heart of the matter. Are you seeing someone else?--without sending a potential partner heading for the hills? Insightful, timely, and impossible to put down, *Speaking in Thumbs* is an irresistible guide to the language of love. With wit and compassion, Winsberg empowers you to find and maintain real connection by reading between the lines.

Smokescreen Jul 02 2020 From the leading authority on marijuana—a man who has served as White House advisor on drugs to three different administrations and who NBC News once called “the prodigy of drug politics”—comes the remarkable and shocking exposé about how 21st century pot, today’s new and highly potent form of the drug, is on the rise, spreading rapidly across America by an industry intent on putting rising profits over public health. *Smokescreen: What the Marijuana Industry Doesn't Want You to Know* examines the inside story behind the headlines, containing accounts from Sabet’s time in the Obama administration to stunning revelations from whistleblowers speaking out for the first time. What it finds is how the marijuana industry is running rampant without proper oversight, leaving Americans’ health seriously at risk. Included are interviews with industry insiders who reveal the hidden dangers of a product they had once worshipped. Also contained in these pages are insights from a major underground-market dealer who admits that legalization is hastening the growth of the illicit drug trade. And more to the heart of the issue are the tragic stories of those who have suffered and died as a result of marijuana use, and in many cases, as a result of its mischaracterization. Readers will learn how power brokers worked behind the scenes to market marijuana as a miracle plant in order to help it gain widespread acceptance and to set the stage for the lucrative expansion of recreational pot. The author of this compelling first-person narrative leading the national fight against the legalization of cannabis through his nonprofit, Smart Approaches to Marijuana (aka SAM) is Kevin Sabet. As a policy advisor to everyone from county health commissioners to Pope Francis, and a frequent public speaker on television, radio and through other media outlets, his analysis is consistently relied upon by those who recognize what’s at stake as marijuana lobbyists downplay the risks of massive commercialization. A book several years in the making, filled with vivid characters and informed by hundreds of interviews and scores of confidential documents, Sabet’s *Smokescreen* lays bare the unvarnished truth about marijuana in America.
